Q: What's the difference between these letters? Are they spaced for emphasis or something? This is a letter I got a few days ago. I'm not sure what the difference is between the two α's. Is it just spacing or are they usually spelt that way? A: That is an error in the manuscript, not to be found in the original version of the book. It is the first letter of the fifth chapter, 'Approximately I', followed by the last letter of the third chapter, 'Affairs are simple, but over them are complicated analyses'. It is surely not intentional. Of course, the word is strongly pronounced, which makes it very easy to get an error in the writing. The proof is that this word is not correct in the manuscript, where the Π is replaced by a Η (for the Κ): ΠΙΡΩΟΝΟΠΟΙ The correct text should be: ΠΙΡΩΟΝΟΠΟΙ Thursday, October 20, 2008 As I was watching the Dixie Chicks' Win and Lose live broadcast on CNN last night (I'm not proud), I realized I never had described a particular moment with the Dixie Chicks and talked about the part of the movie that was the most memorable to me. (Editor's Note: The Dixie Chicks were on an American Airlines flight that was diverted by a crying baby.) Anyways, as I was watching the show, I was so happy with the performances and the ensuing discussion with Meshel Laurie. Then at the end of the program, when the song "I Hope You Dance" was being played, I noticed the Dixie Chicks were wearing different shoes than they normally do during the show. And when they went on stage to sing "Long Time Gone," each one had a

[...] "The Witcher" is a cinematic adaptation of the hugely popular role-playing video game series, as well as the first of a trio of games based on the series -- the others being "The Wild Hunt" and "Kingdom Come: Deliverance". It's a prequel, set before the events of the original games -- and tells of the origins of the legendary hunter Geralt of Rivia and his adventures with the Nilfgaardian Empire. "The Witcher" was directed by genre favorites Tomasz Baginski ("The Witcher 2: Assassins of Kings") and is co-produced by Platige Image, starring Henry Cavill as Geralt of Rivia and Anya Chalotra as Ciri and Freya Allan as Triss Merigold (a playable character in the game). "Game of Thrones" maestro involved in the project -- and who appears as himself in the game's opening title sequence -- was Yana Priscilla Talamantes. She's the Director of Photography and was also the Director of Photography on the television series. The directing and design team includes Oscar-winning game designer/game director Tristan Seagrave, David Gaider (creator of the Witcher novels), Marc Ecko (co-founder of Ecko-One), and Mike Pondsmith (creator of "Mage Knight"). The visual effects were done by the top team from Industrial Light & Magic in the US, "Expedition" in Poland, and Colossal Order in Finland. Featuring spectacular locations from the Witcher books and original games, "The Witcher" shows us a beautiful and magical place where humans and elves co-exist in harmony -- until war is unleashed between the two. A gang of pensioners is captured by a bunch of zombies. That doesn't sound like much fun. In fact, it sounds like a perfectly sensible way to spend your retirement years. When a mysterious woman watches from the shadows, though, it starts to sound like a pretty good idea. As the chosen ones, the elderly are granted the ultimate in zombie-fighting ability... and thus begins a long and bloody march. The Game In Anascape, the goal is simple: make sure the boss doesn't get to blow up the world. And if that all sounds a bit familiar, there's a reason for that - Anascape borrows heavily from such zombie classics as The Last of Us and Dead Rising. So, much like these,
